## **ClearStar.net Earns Business Intelligence Competency in Microsoft Partner Program**

**CUMMING, GA – January 9, 2009** – ClearStar.net, a leading technology provider for the employment and tenant screening industry, announced today that they have earned the Business Intelligence Competency in the Microsoft Partner Program. This competency comes in addition to the Data Management Solutions Competency earned earlier by the company.

Microsoft Competencies are designed to help differentiate a partner's capabilities with specific Microsoft technologies to customers looking for a particular type of solution. Each competency has a unique set of requirements and benefits, formulated to accurately represent the specific skills and services that partners bring to the technology industry.

The Business Intelligence Competency recognizes ClearStar.net's proven skills in designing, deploying and customizing business-intelligence offerings that are built on Microsoft SQL Server and other Microsoft technologies.

"The addition of the Business Intelligence competency demonstrates ClearStar.net's proven success in delivering solutions to support better business decision making," explained Kevin Lenahan, Chief Technology Officer for ClearStar.net. "Having the competency enables us to differentiate our commitment and expertise in providing business intelligence applications including reporting and performance management to our customers."

### **About ClearStar.net**

ClearStar.net is a trusted provider of strategic services and decision making information for screening firms. ClearStar.net's proven technology infrastructure is HR-XML Consortium certified and sets the foundation for a strong community of progressive, independent retailers who provide risk mitigation, employment and tenant screening services.
